BRIDE IS ROBBED WHILE AT ALTAR

Lights in Pittsburg Mansion Go Out, and Diamond Brooch Vanishes.

PITTSBURG, July 3 .- Pittsburg society is excited over a Raffles, sup-posed to be a woman, working among the members of the most exclusive set. The matter reached a climax at a wedding, when a robbery was committed right under the noses of the detectives and in the most audacious man-

For several weeks robberies have been reported at society functions; but the boldest of the robberies was perpetrated at the home of Mrs. John Morgan Morrow, in the fashionable Squirrel Hill district. Mrs. Morrow's daughter, Miss Lynde Morrow, was married to John Moore Petty, a prominent attorney, and almost 100 guests were present. The ceremony was just being concluded, and Rev. J. Shane Nichols had started to offer prayer, when suddenly the lights went out. The preacher conthe lights went out. The preacher con tinued the prayer, and a few minutes later the lights went on again. The switchboard had been tampered with. Soon after the ceremony the announce-ment was made to the startled guests that a magnificent diamond brooch, the bridegroom's present to the bride, had been stolen from the bride's bedchamber where the presents were displayed. A maid and a negro man servant had been in the room all the time, and are satisfied that no person except the guests was present in the room at any time. The diamond brooch was seen just before the lights went off, and was missed immediately afterward.

Detectives who were present declare that the brooch was stolen by one of

After the girl ind recited the circumstances attending the loss of the gold-tops of her molars, May was held in \$300 for appearance in the special sessions court.

The testimony adduced, while sufficient to warrant the holding of the dentist is to the formal charge made by Mss Ayer, also demonstrated that Dr. May was the victim of an agent's ignorance concerning bank usage.

Miss Ayer had had considerable work done at Dr. May's establishment, and for this attention, she said, she had paid from time to time with checks drawn upon the Night and Day Bank. The last of these was for \$20, and this closed her account.

WIFE'S WOES AS HOUSEKEEPER ARE NEVER APPRECIATED—EARNS VACATION.

"Woman's work is never done," the old saw, and while this might be considered an equivocal expression, it really means that the feminine portion of the populace which keeps house, the proportion which sews and cooks and darns and dusts, has no regular hours WATERBURY, Conn., July 3.—Harry times them in season and out.

Fancy the feelings of a housekee who belonged to such a society and who one minute after 5 was called on to sew a button on her husband's coat of to mend a rent in the best skirt of her eldest daughter.

Fancy her feelings if in the closed hours her husband came home hungry and demanded that she broil him chop; imagine her consternation if he wished a bed made for a guest.

It is a curious thing about the average man that though he has lived in a iouse all his life he has no idea how much labor is required to keep that domicile in condition. He imagines that with a few short but energetic movements the housekeeper puts everything to rights and that the rest of the day she spends reading, playing on the piano and otherwise conducting herself as a perfect lady should.

In a Warm Day Humor.

The other day a husband who has been married long enough to know better came home from his office in the sort of humor a very warm day induces.

He is the kind of persen who expects his wife to meet him at the door, wearing her best gown, a sweet smile, and a pink bow in her hair. When, therefore, he found that portal unoccupied, and going in discovered his wife lying on a couch in the library, it was with distinct discovered his his with the distress the library, it was with distinct discovered his wife the series of on a couch in the library, it was with distinct disapprobation in his voice that he asked what was the matter.

"Tired?" repeated the man in an incredulous tone, "tired. Why should you be tired? If you had been downtown all day working like a dog to keep the wolf from the door, you would, perhaps, know something about what the word means. I wish we could have exchanged places today, for your own information."

"So do I," returned the wife quietly. "You have an electric fan in your office, I believe. Well, there is none over my kitchen stove. Suppose I tell you some of the things I have done. I began early by making jelly of twelve quarts of currants and preserves of twenty-four quarts of red raspberries. It was very warm work, and took some time. When this was finished I did up the mirrors and chandeliers in the drawing room and in this room in cheese cloth so that they will not be injured while we are away in the country. I covered the furniture in both rooms, packed away the blankets, finished a shirt waist suit for Mary, ordered tomorrow's mee's, sealed up my preserves and jelly and put them in the preserve closet, and now I am indulging in a case of nervous prostration, which I shall continue for a few short moments if you have no objection."

DEEP IN MYSTERY

CHICAGO, July 3.—The merging of three identities into one—that of Nel-son, the sewetheart chauffeur; Edward Thompson, the school teacher husband, and J. H. Raymond, the man who took the woman to the rooming house at 1242 Michigan avenue—may solve the murder of Mrs. Francis Thompson, according to the police. Both Inspector Wheeler and Walter C. Gilmore, the busband Edward Thompson, has been living a triple life, and with his arrest the mystery which so far has surrounsed the case will be explained, and that it will be shown that both "Nelson" and "Raymond" are Thompson, the husband whom the woman was said to have deserted six months after her marriage.

Telegams have been sent to the police of St. Paul, Minn., Fargo, N. D., Crook-ston, Minn., and New York, in which eities Thompson has lived, asking his immediate arrest if found.

Naphtha Won't Do It All.

The soap must be good. P. & G. Naphtna Soap IS good.

Possibly you do not know how P. & G. Naphtha Soap does its work.

The way of it is this: The naphtha in it has an "affinity" for dirt. It breaks dirt into tiny particles, which are easily removed by soap and water. In other words, naphtha loosens the dirt. Water car-

ries it off. Soap and water, together with fresh air and sunshine, restore clothes to their original freshness and beauty. Naphtha, then, is valuable. It helps to make wash-

ing easier, because it loosens the dirt. But the real work

of making clothes clean must be done by soap. The better the soap, the easier the work. Right there is where P. & G. Naphtha Soap's superi-

ority is proven. Clothes washed with "P. & G." are whiter, brighter, cleaner, sweeter than when washed with any other soap. The reason is simply this:

> P. & G. Naphtha Soap is better soap. 5 cents a cake-worth more. -
